***BANC Show dates: 16 Feb., 20 July, 19 Oct.
(We need to support these shows)***

PRESIDENT'S PREAMBLE

In the spirit of the season I hope each and everyone of you had a great Thanksgiving holiday and have recovered from all the turkey, dressing, pumpkin pie etc. As I gave thanks, one of the things that I am grateful for is having an organization like MD TAMS to help educate me and facilitate my hobby interests. On behalf of MD TAMS and its officers, I also would like to wish you and yours a very warm, safe and happy upcoming holiday season.

Our last meeting was held at the Suburban Baltimore/Washington Coin Show in November. I was away and unable to attend this meeting and want to thank Vice-President Mill Hajek for running what I hear was a good meeting. Our next meeting will be at the Suburban Baltimore/Washington Coin Show in March. Let's try and make this a strongly attended meeting. March marks another dues year so this would be an ideal time for you to pay your dues for the next year or even better, maybe you want to become a life member and no longer have to worry about yearly dues payments.

As you may have heard, the Baltimore Area Numismatic Coalition (B.A.N.C.) is back in business for 1997. See the article elsewhere in the Journal for a refresher on BANC. Since MD TAMS is one of the three member clubs in BANC, we need to support the BANC shows. The first BANC show in 1997 is 16 February. Your support can take several forms: first, you can help work at the show (MD TAMS is responsible for covering the 2-4 PM time slot); and second, you can attend the show and show support in that manner. These shows directly benefit MD TAMS and our treasury. The show will be at the Holiday Inn at 1100 Cromwell Bridge Road just off the Baltimore Beltway (I-695) at Exit #29. The show runs from 9 AM to 4 PM. Lets show some strong support from MD TAMS. Those who are willing to work, please contact either your President or Vice-President (their phone numbers are on the Journal cover).

In an effort to make the March meeting more educational and enjoyable, please try to bring at least one item for "show & tell". Bring that new token you recently found or an item that you find very interesting. Also, a reminder that beginning with the next issue of the Journal, all paid ads will be new. All old ads expire with this issue. If you want a paid ad in the MD TAMS journal, you must send the new ad with your check to the Treasurer. He will get your ad to the Journal editor after recording the transaction. I also want to pass along our formal get well wishes to Bill Ayres who is on the mend from some recent surgery - Welcome back Bill!

From Your Editor...

Will Mumford

Getting that perfect Christmas gift for numismatist must be quite a task for our loved ones. I know through the years unless I gave strong hints, from my Christmas gifts one would never know I was a collector of coins and tokens. I'm sure many of you know what I'm talking about, but perhaps some of you have found the solution to this "gift" idea. The only "solution" I ever found was to buy my own gift and put it under the tree, "To Will from Santa," and act real surprised when I opened it! But, alas, I think my family always knew it was really, "To Will from Will!" If any of you have found a solution to the "gift" thing, please let me know what it is so I can pass it on to our fellow exonumismatists! (and my family)...

Meanwhile you can still find lots of great gifts in the current coin magazines. Just browsing through my latest Coin World I find the following:

1. A new issue of Disney Dollars in \$1, \$5, and \$10 denominations. They are good for a 1-1 exchange at Disney Stores.

2. One ounce-.999+ Fine Pure Silver 1996 Christmas Rounds. Only \$6.75 each with Santa, Snowman, Reindeer, Angel, or Carolers. From Coast to Coast Coins, Columbia Maryland.

3. Silver Christmas Ingots and Rounds...11 different varieties with a draw-string bag for \$1.25 extra. From Paul Sims, Inc.

4. SilverTowne Mint offers Christmas jewelry made from .999 fine silver and mounted in sterling silver bezels and chains enameled in brilliant colors. Or a Garfield Christmas silver medallion and ingots...or a stuffed Garfield with a silver medallion mounted to his tummy!

5. Holiday coins of one ounce silver are available from Rare Coin Auction..the only Rudolph coin I've seen!

6. Midas Coins have really gone big in crystal and sterling ornaments. Waterford vases and crystal and other ornaments.

7. 1996 dated silver Christmas Bars can be obtained from Mount Vernon Coin Co. in Annapolis, Md. same silver items listed in #3, but a little more expensive...that's that high rent on Main St. Annapolis!

8. Christmas rounds from Virg Marshall III, Inc., Wymore, NE.
9. More 1996 Christmas bars from The Coin Depot, Greensville, SC.

10. You can also give special Holiday Gifts through Coin World in the form of a gift subscription. They offer reduced rates for each additional gift after your first gift subscription at full rate!

Now with all these choices how can I say I have never solved the Christmas gift problem? Well, I have a subscription to Coin World and I really don't collect all those other things! So I'm right back where I started. Guess I'll have to settle for my new shirt and ties...again! But don't think for a moment that I'm down on Christmas...because I'm not! I love Christmas and love to gather around the beautiful tree and share gifts with my family...guess I'm old fashion, but my real Christmas is my family. No man could ever wish for a greater gift... Hope you have a great Christmas and a real Happy New Year! See you at our next MDTAMS meeting.

COLLECTING PINS

I was reading an article by Carolanne Griffith-Roberts titled "Pin Your Dreams On Atlanta" in the March, 1995 issue of Southern Living Magazine and thought it would be of interest to some MD TAMS members who might like to try another area of collecting; pins. The article started out with the following sentences.

Now's the time to start training for the largest participant sport in the 1996 Olympics--pin collecting. The market is already cranking up with colorful, collectable pins- the hottest being, at present, this month's 500 days (to opening date) pin. With the stash of pins you collect between now and the start of the games, you'll be armed and ready to swap with folks streaming to Atlanta, Georgia with pins from around the world.

Pin collecting was a great attraction at the Lillehammer Winter Games where you just walked right up and asked people if they wanted to trade. Other great events that offered pins were the World Cup Soccer and Super Bowl. Pins have become an international language where you just show people your pins and use hand motions to make a trade. It's a friendly environment and the people are fun to deal with. One collector pinned her collection to towels while another used a vest to display his wares.

Hot items to collect are pins issued by the International Olympic Committee (IOC) and the National Olympic Committees (NOC's) from participating countries. Pins produced in small quantities (pins range from 500 to 500,000 production levels), ones from corporate sponsors and pins from small countries that don't issue many pins. Media pins, those issued by news papers, magazines or broadcasters are also hot items. So are participant pins, which are hard to get because they're given primarily to coaches and athletes.

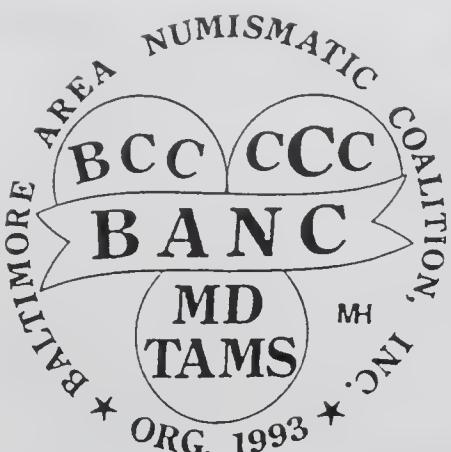

To start collecting without leaving your armchair, consider joining the official 1996 Olympic Games Pin Society, sponsored by Coca-Cola. For \$19.96 you get the monthly "Pin Points" newsletter that features pin offers and collector updates. You also receive a numbered membership pin, an impressive 96-page countdown calendar book, and exclusive pin offerings. For information, call 1-800-746-7496.

The potential of collecting pins is enormous and provides another very interesting collecting area for those that collect exonumia!

BANC UPDATE

Report by Millard W. Hajek LM#1

After a hiatus of a year BANC is back in action! But, just what is BANC? BANC, the acronym for Baltimore Area Numismatic Coalition is an incorporated organization formed by three area numismatic clubs; the Baltimore Coin Club, the Catonsville Coin Club and the Maryland Token And Medal Society (MD TAMS).

The objectives of the Coalition are to operate as a non-profit organization for the purpose of promoting and encouraging an interest in numismatics and to cultivate fellowship among collectors by sponsoring coin shows in the Baltimore metropolitan area. The revenues of the Coalition are derived from profits through the sponsorship of coin shows and other sources that may arise. After all expenses are paid from these revenues, the profits will be shared equally by the member clubs.

The Board Of Governors of BANC consists of nine members with each member club providing three representatives. Currently, MD TAMS representatives are ED CRAIG, JIM BOSWELL and BILL LENZ. The Annual Meeting of BANC is held in February and at that time, member clubs are requested to present their delegates for the BANC Board Of Governors. Officers will be elected from the nine members including an Executive Director, Treasurer and Secretary. At a meeting of the Board on September 21, 1996, the following officers were elected to temporary positions; Executive Director- Ed Craig, Treasurer- Marvin (Pete) Burris and Secretary- Bryce Doxzon.

Paul Finck, sponsor of the Towson Coin show at the Holiday Inn, 1100 Cromwell Bridge Road, Towson, Maryland (Exit 29A off Beltway 695) has generously allowed BANC to take three of his show dates for 1997. These dates are February 16th, July 20th and October 19th, 1997. Your help will be needed for various duties at these shows so please volunteer your time and services when called upon to do so! And just as important as helping out, support the show by attending and doing business with the dealers who have taken tables! More information about BANC and its shows will be forthcoming at our MD TAMS meetings and the Maryland Tams Journal.

Book Review- By Curtis H. Judge

MERCHANT TOKENS OF SEATTLE By Del Cushing

Mr. Del Cushing has recently published a new work that catalogs the merchant tokens of Seattle, Washington and the surrounding areas. The focus of the book is narrow by design. He includes the city of Seattle and eighteen other municipalities such as Ballard, Fremont, Hanford, Latona, Magnolia and South Park that have been incorporated into the city over the years.

The volume is in the 8 1/2" X 11" format with card covers and is spiral bound. Printing is done on heavy weight paper that should stand up to years of usage for the Seattle collector. Quality of the print is satisfactory and of sufficient size that it easy to read. The author has chosen not to include any illustrations of the tokens cataloged.

The catalog lists over 3200 pieces that have been attributed to Seattle. It is felt that possibly an additional 2000 pieces exist that are yet to be found and cataloged. A complete description of each token is given including obverse and reverse wording, size in mm, composition, shape and any cutouts. The author admits that the attributions on some of the pieces is questionable, but hopes that further information will surface to allow positive identification once the new catalog starts circulating.

The author has not attempted to establish a rarity scale for the listings. He feels that there are not enough collectors of Seattle tokens to be able to develop a collection cross reference on rarity.

The listings are presented in a manner that is different from the normal catalog presentation. All are in alphabetical order, with no town segregation between Seattle and the other incorporated towns being given.

No catalog number is assigned each token as is common to ease identification and correspondence between collectors. The author also does not include an index which would be very helpful in attributing to the area, maverick tokens acquired by a collector.

Issuance of the catalog should stimulate interest in Washington state tokens in general and Seattle tokens in specific. The catalog is a worthy first effort, and the reviewer hopes that future editions will include illustrations, an index for maverick attribution, and a rarity valuation even if based on the tokens in a small number of collections. All collectors of Washington state and Seattle in specific will need a copy of this work for their reference.

Autographed copies are available directly from the author Mr. Del Cushing, P.O. Box 88984 Seattle, WA 98138-2984 for \$18.50 postage paid.

The Baltimore City Mint - Part I

Millard W. Hajek LM #1

The following narrative was told to the writer in a conversation with Robert (Bob) Maxey and tells about the creation of THE BALTIMORE CITY MINT and the medals it issued.

But first a little about Mr. Maxey and his collecting interests. Bob started in the hobby of coin collecting at the early age of 10 years. Today, he likes to collect the unusual; errors such as VAM's, double dies, strike doubling and coins you can cherry pick. Along with this he also collects medals and love tokens that just "peak his interest."

In the late 1950's, Bob started to become aware that United States coin designs were stagnant and, in his opinion, slowly and continually going downhill from an artistic viewpoint. These thoughts lingered in his mind for some time and he pondered how he could somehow help to get United States coin designs back to being artistic and beautiful like many of the very early coins. His personal efforts toward improving United States coin designs started in the early 1960's with a letter writing campaign and sending suggest design ideas to the United States Mint.

Unfortunately, the Mint's response was

that the U.S. Mint must administer its numismatic and bullion program in accordance with legislation enacted by Congress and signed into law by the President. Each public law generally specifies, among other things, the design(s) to be depicted on coins.

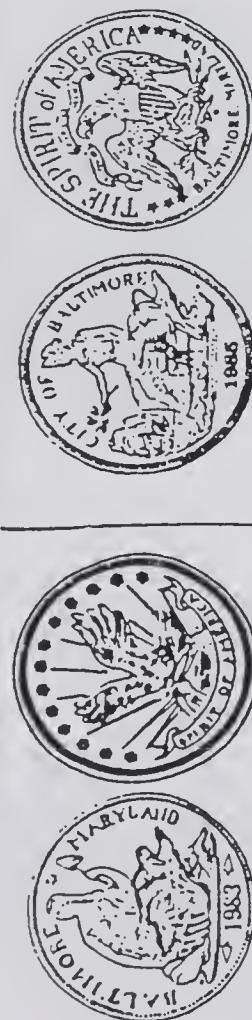

Continuing his letter writing campaign, Bob reached out to his congressmen and senators, again without success. Disappointment reached its peak in 1977 when Congress approved the designs for the Susan B. Anthony dollar which most collectors, including Bob, considered ugly and unattractive.

Frustrated with the lack of progress on U. S. coin design changes, Mr. Maxey decided to create artistic designs for his own medals. With some interest in the silver dollar arena, Bob like the sound akin to the Carson City Mint for a name and thus, THE BALTIMORE CITY MINT was born.

The story of THE BALTIMORE CITY MINT - - PART II will continue the next issue of the Maryland Tams Journal.

MARYLAND MERCHANT TOKENS

by DAVID E. SCHENKMAN

Published by the Maryland Token and Medal Society, this deluxe hardbound 248 page, large format (8½ x 11 inch) volume catalogs more than 2,200 tokens from 225 towns in Maryland. In addition to complete descriptions of the tokens, a price guide has been included. The profusely illustrated book is extensively annotated with historical information about the token-issuing merchants, and the introductory section includes a wealth of information about Maryland tokens.

MARYLAND MERCHANT TOKENS will surely become the standard reference work on the subject. This invaluable book belongs in the library of every serious token collector.

Price \$45.00 per copy, postpaid. Maryland residents must add \$2.25 state sales tax.
